HARSHVARDHAN SHINDE

Indore, Madhya Pradesh, India | 8770308351 | harshshinde758@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Software Developer with a strong foundation in Java and Spring Boot, focused on building robust backend systems and RESTful APIs. Demonstrates rapid adaptability to new technologies and cross-stack development environments. Experienced in developing transaction-based systems and multi-role platforms, with emphasis on clean architecture, problem-solving, and scalable design.

TECHNICAL SKILLS

Languages: JAVA, C/C++
Backend: Spring Boot, REST APIs, JPA/Hibernate
Database: MySQL
Core Concept: OOP, Collections
Tools: Git, Postman, Maven

WORK EXPERIENCE

Java Developer Intern | YPSILON IT SOLUTIONS PRIVATE LIMITED, Indore Dec 2025 – Feb 2026

- Developed a backend banking system using Spring Boot supporting 5+ core functionalities including account management, deposits, withdrawals, and transaction tracking
- Designed layered architecture (Controller–Service–Repository)
- Handled 1000+ transaction records using MySQL and JPA/Hibernate
- Ensured data consistency with validation and transaction logic
- Maintained real-time balance updates and transaction history
- Performed testing and debugging for system stability

PROJECTS

ProNest – Service Provider Marketplace | Java, JSP/Servlet, Hibernate/JDBC, MySQL

- Built multi-role platform (User, Provider, Admin) for service booking workflows
- Developed booking lifecycle including request creation and completion
- Designed database with 5+ tables ensuring data integrity
- Used DAO architecture for modular backend
- Created dashboards for managing services and bookings

Healthcare Diagnostic & Appointment Management System | Python (TensorFlow), Next.js, Node.js, Appwrite

- Developed a healthcare platform supporting 3 disease detections (Pneumonia, COVID-19, TB) using a TensorFlow-based ML model for chest X-ray analysis
- Built a role-based system with Admin, Doctor, and Patient interfaces enabling structured medical workflows
- Implemented appointment scheduling system managing end-to-end booking and doctor availability
- Integrated ML model via APIs to process chest X-ray inputs and return prediction results in real-time
- Implemented OTP-based authentication and secure user access using Appwrite services
- Utilized Appwrite as backend service for managing user data, appointments, and authentication workflows
- Designed modular architecture ensuring scalability and maintainability across frontend and ML integration layers

EDUCATION

B. Tech in Computer Science 2022 – 2026
Chameli Devi Group of Institutions, Indore, Madhya Pradesh, India

CERTIFICATES

- Deloitte Cyber Job Simulation - Issued by Forage
- JPMorgan Chase & Co. Software Engineering Job Simulation - Issued by Forage
- Commonwealth Bank Software Engineering Job Simulation - Issued by Forage
- MERN Internship - Ypsilon IT Solutions pvt. ltd., Indore, Madhya Pradesh, India

SOFT SKILLS

Problem-Solving • Teamwork • Communication • Adaptability • Critical Thinking
